

2012 Fall Forage or Cover Crop Survey

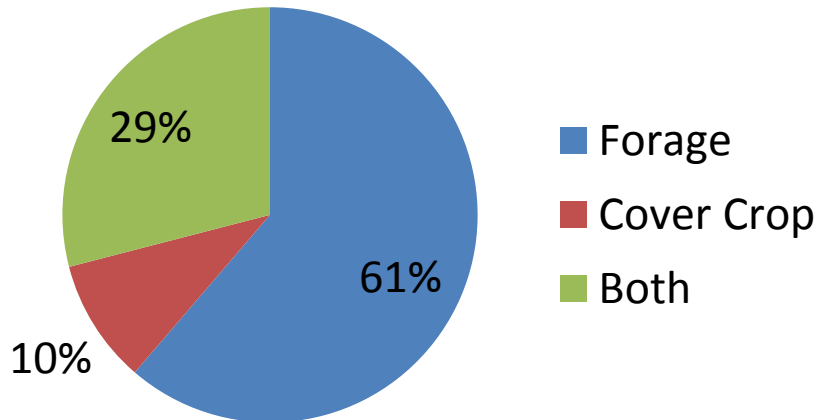

**CRIBIT
SEEDS**

For what purpose did you plant a summer (or fall) crop in 2012

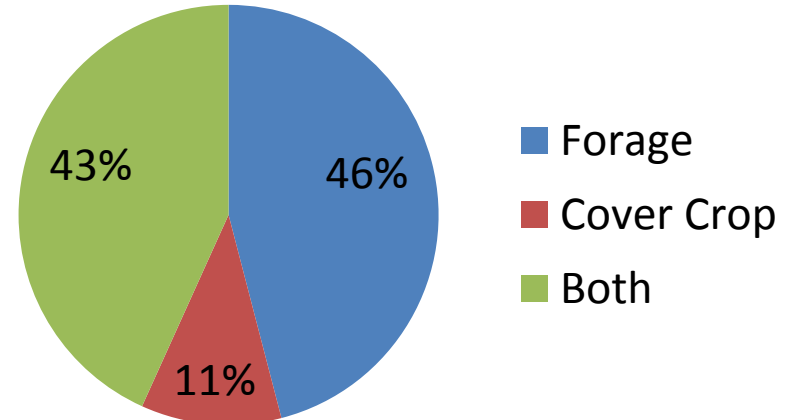

Was it the first time you did this?

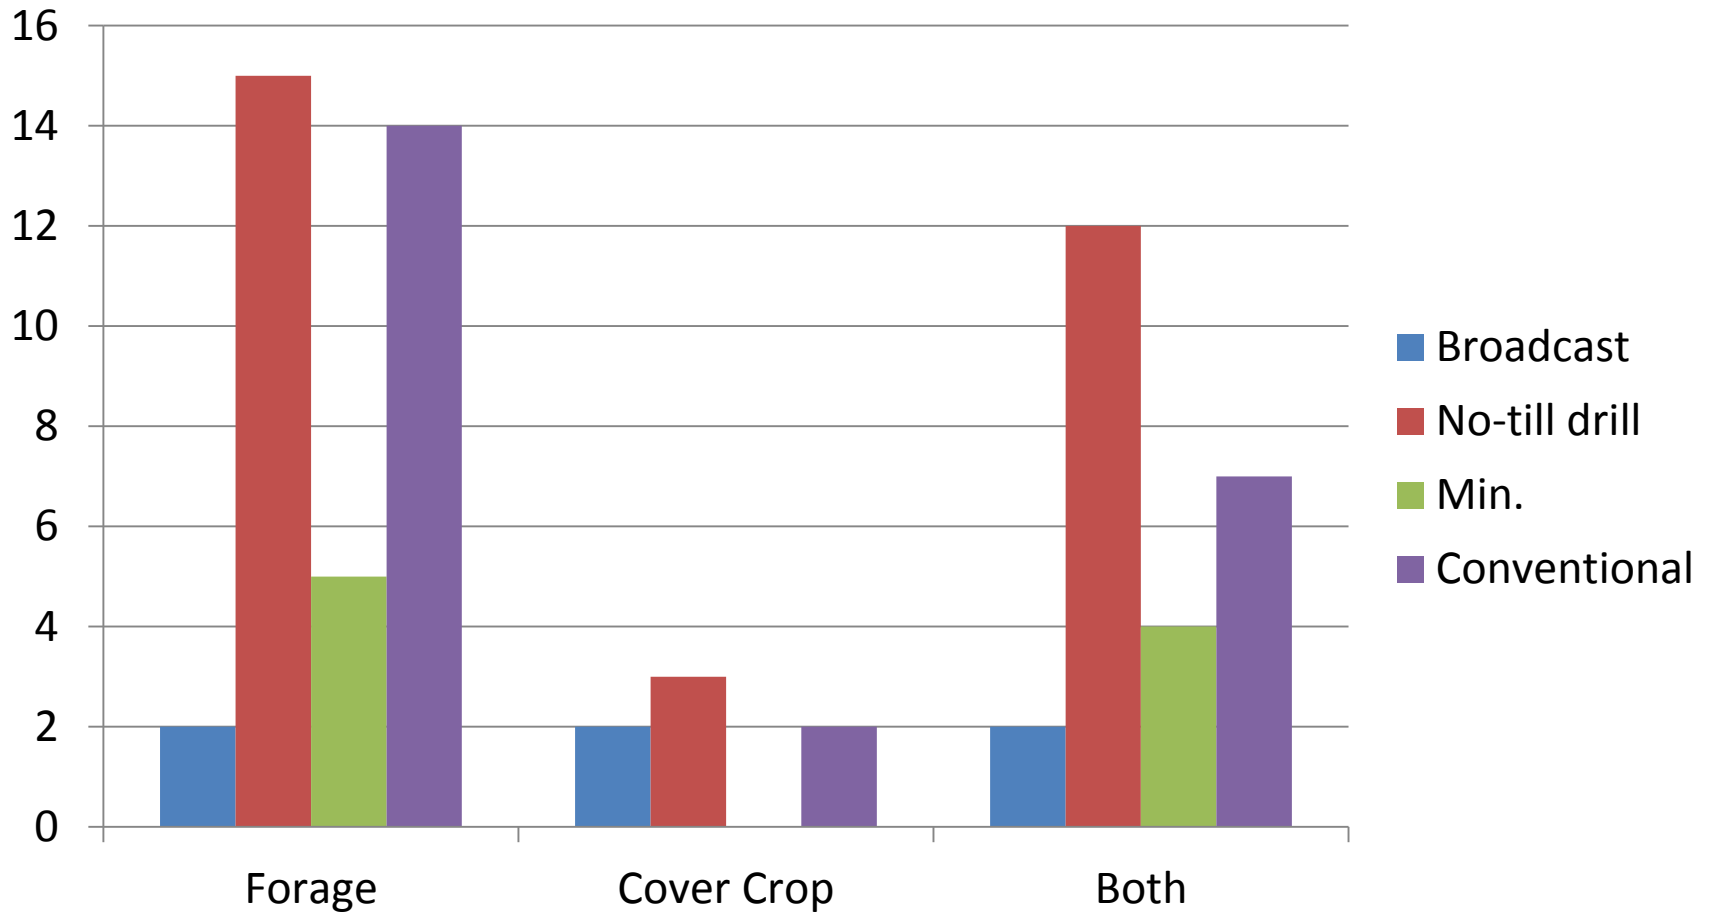

46 % said Yes, broken out for the following purpose:

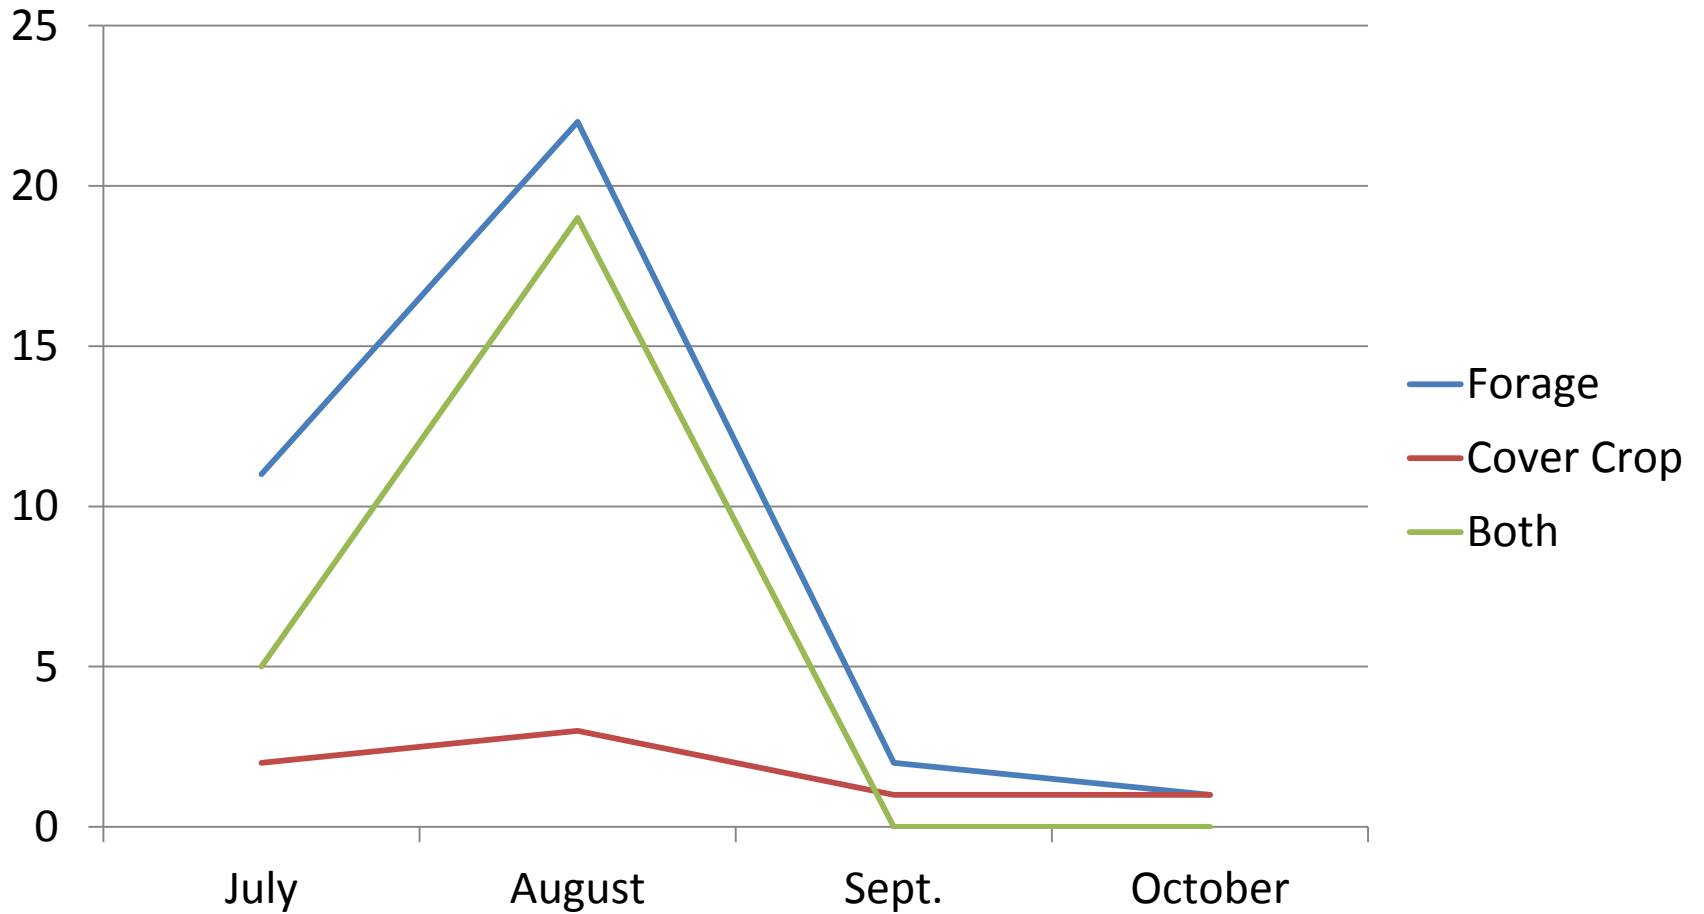

While 56% had past experience while pursuing the following outcome:

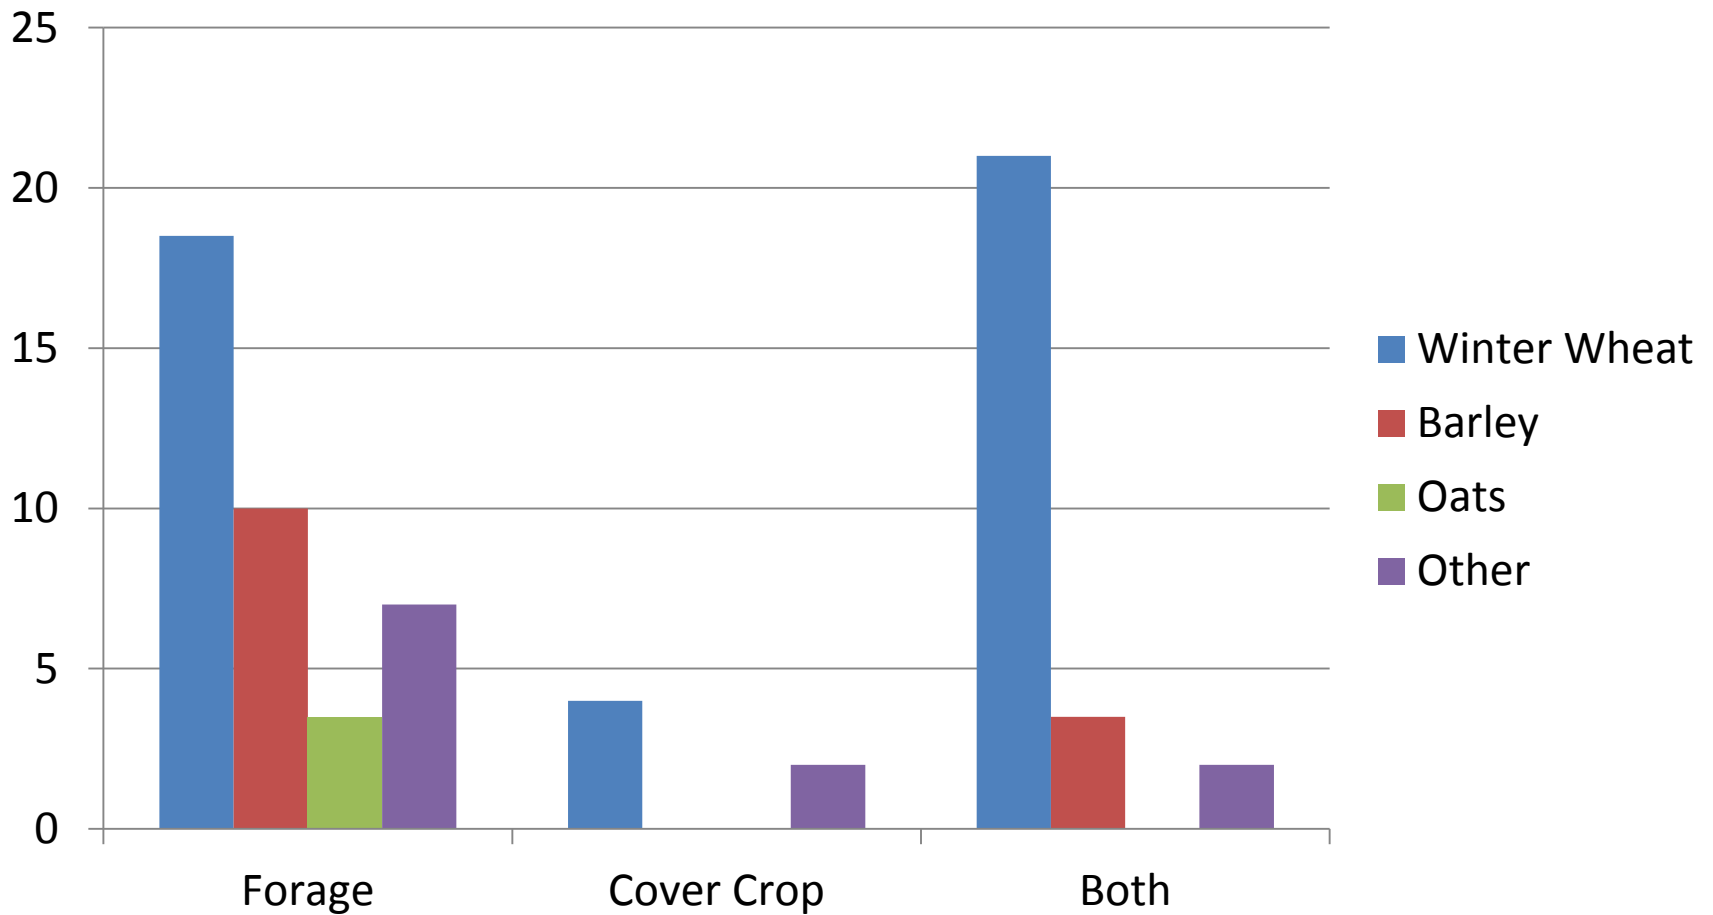

How did you plant the seed?

Which month did planting take place?

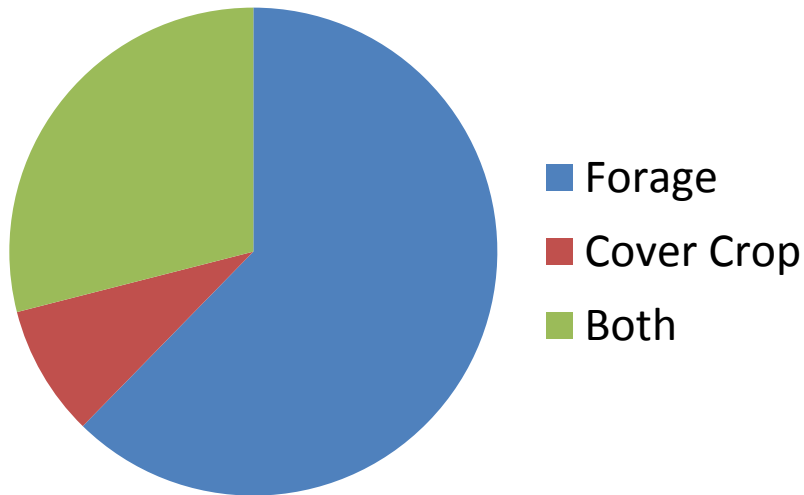

What crop was harvested prior to planting?

Did you apply manure prior to planting?

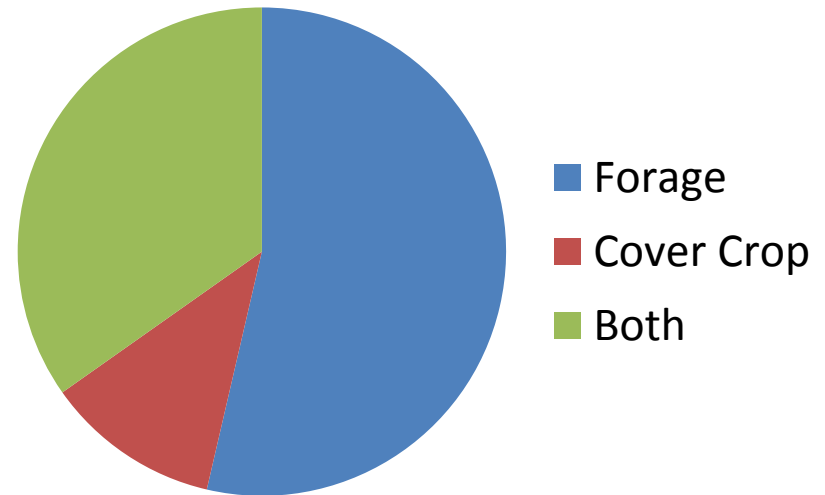

Amount of Farmers

Yes

Amount of Farmers

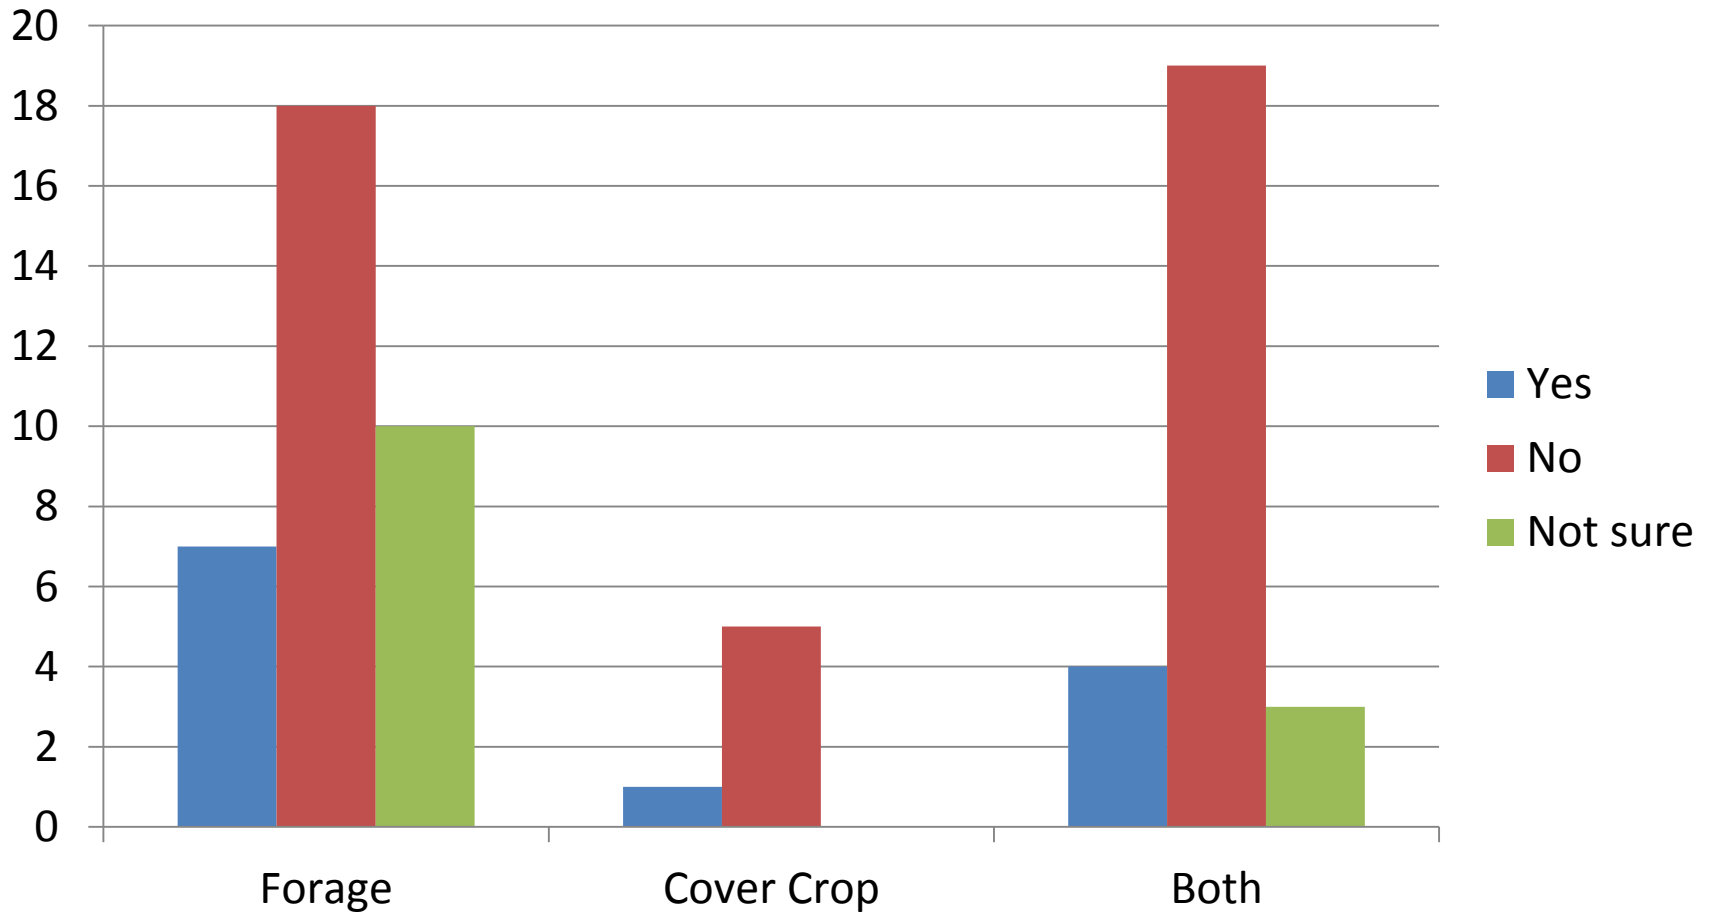

No

If you applied commercial fertilizer
in active amounts, approx. how
many lbs./acre of N,P,K?

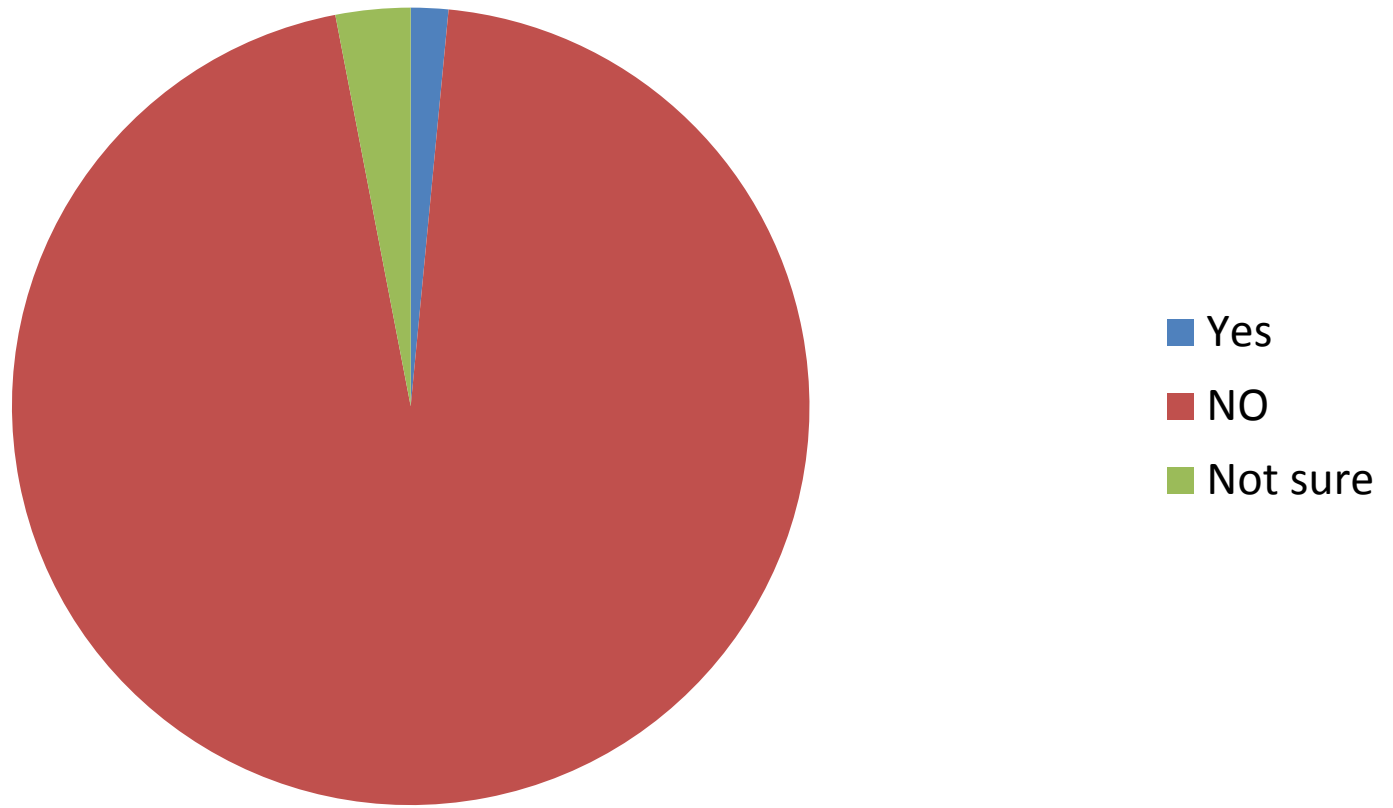

- 19N,19P,19K-1 response
- 30N,30P,30K-1 response
- 38N,38P,38K-2 responses
- 40N-1 response
- 56N,34K-1 response
- 100lbs of N-1 response

Was the seed treated?

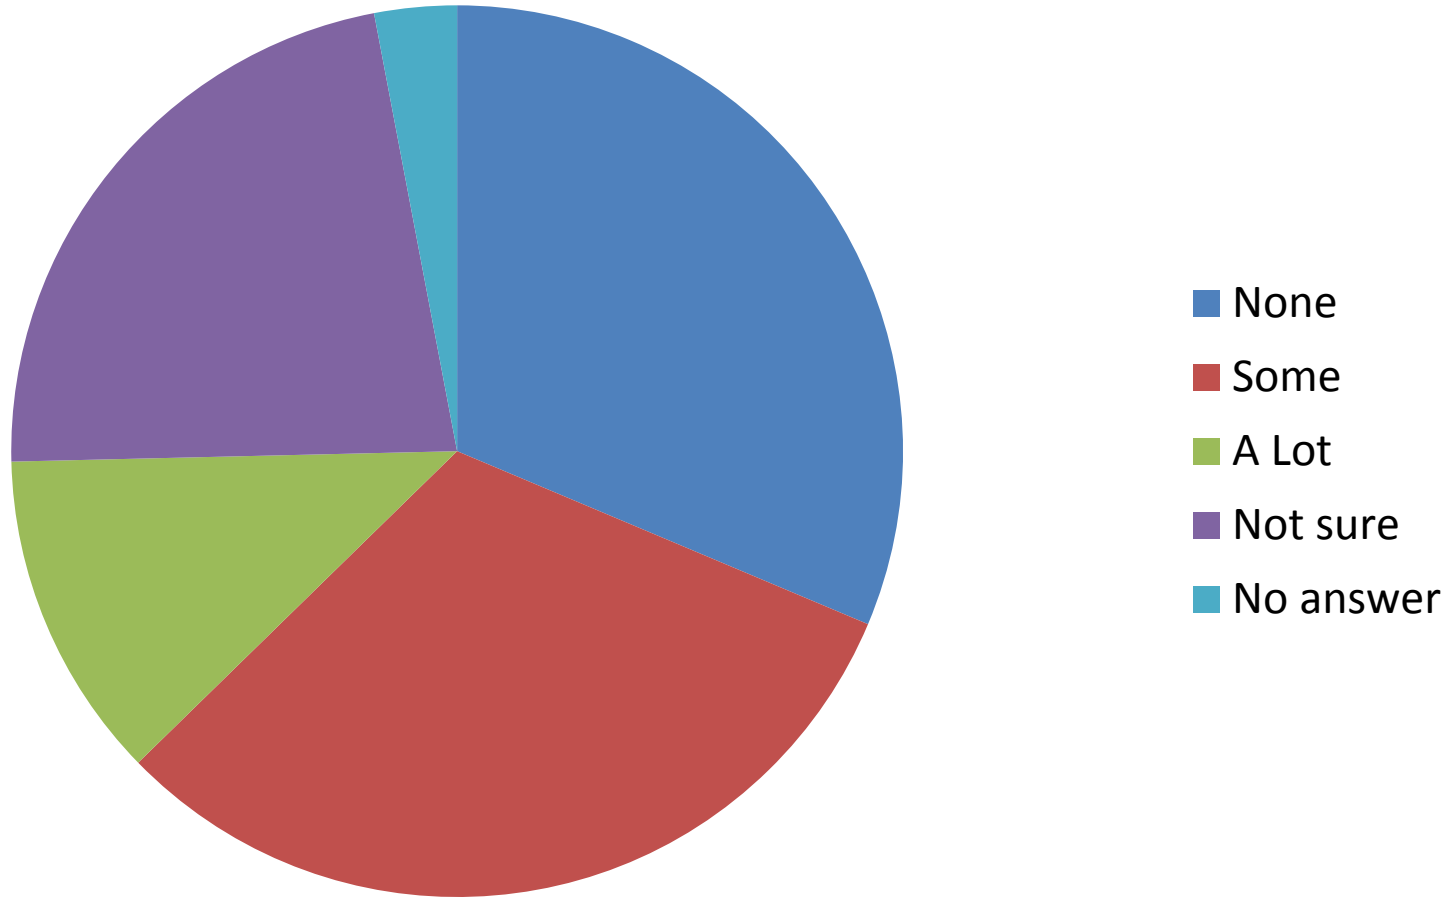

Did you apply a fungicide to control disease?

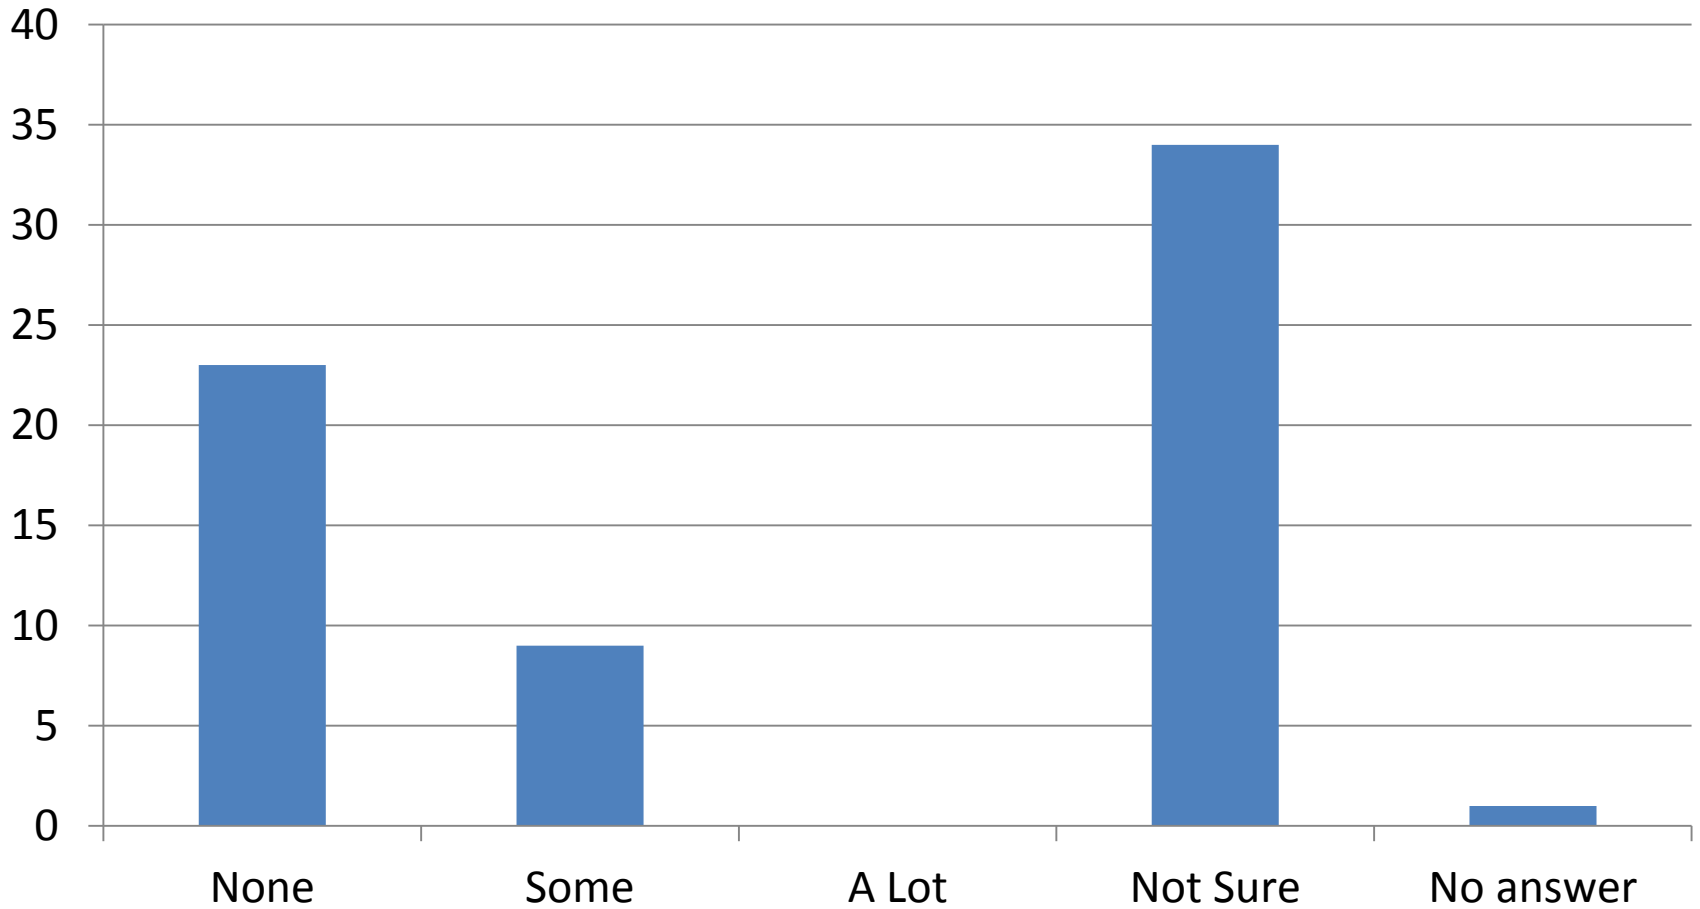

* 1 Yes reply was "only on oats"

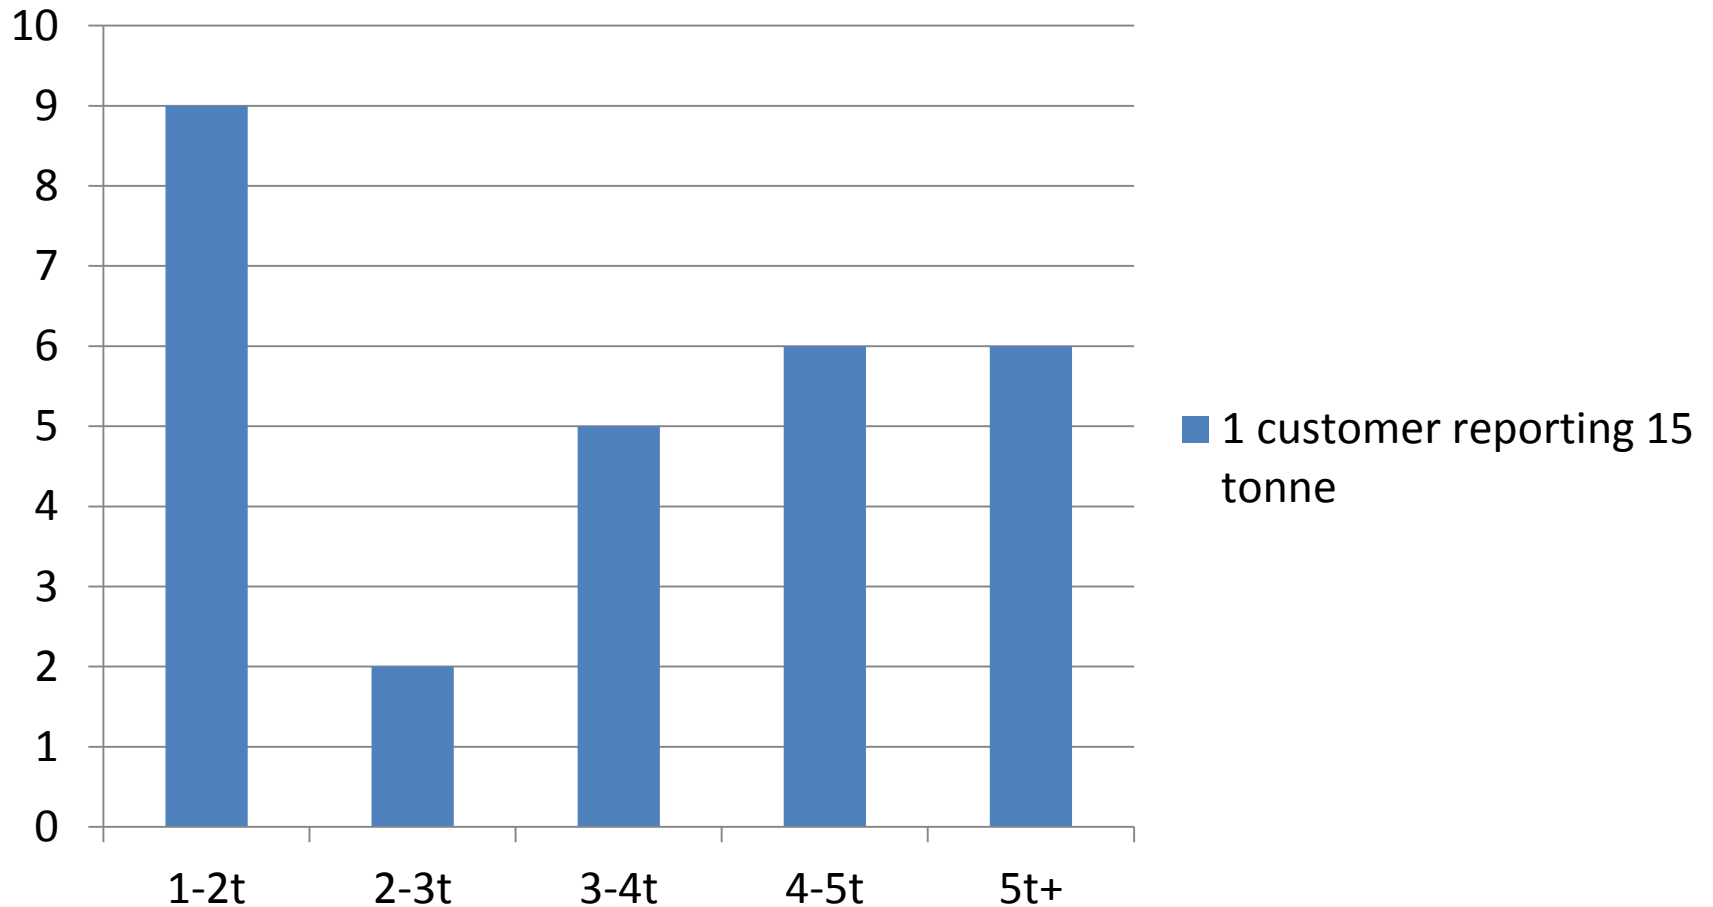

If you planted oats, did you observe crown rust on the leaves?

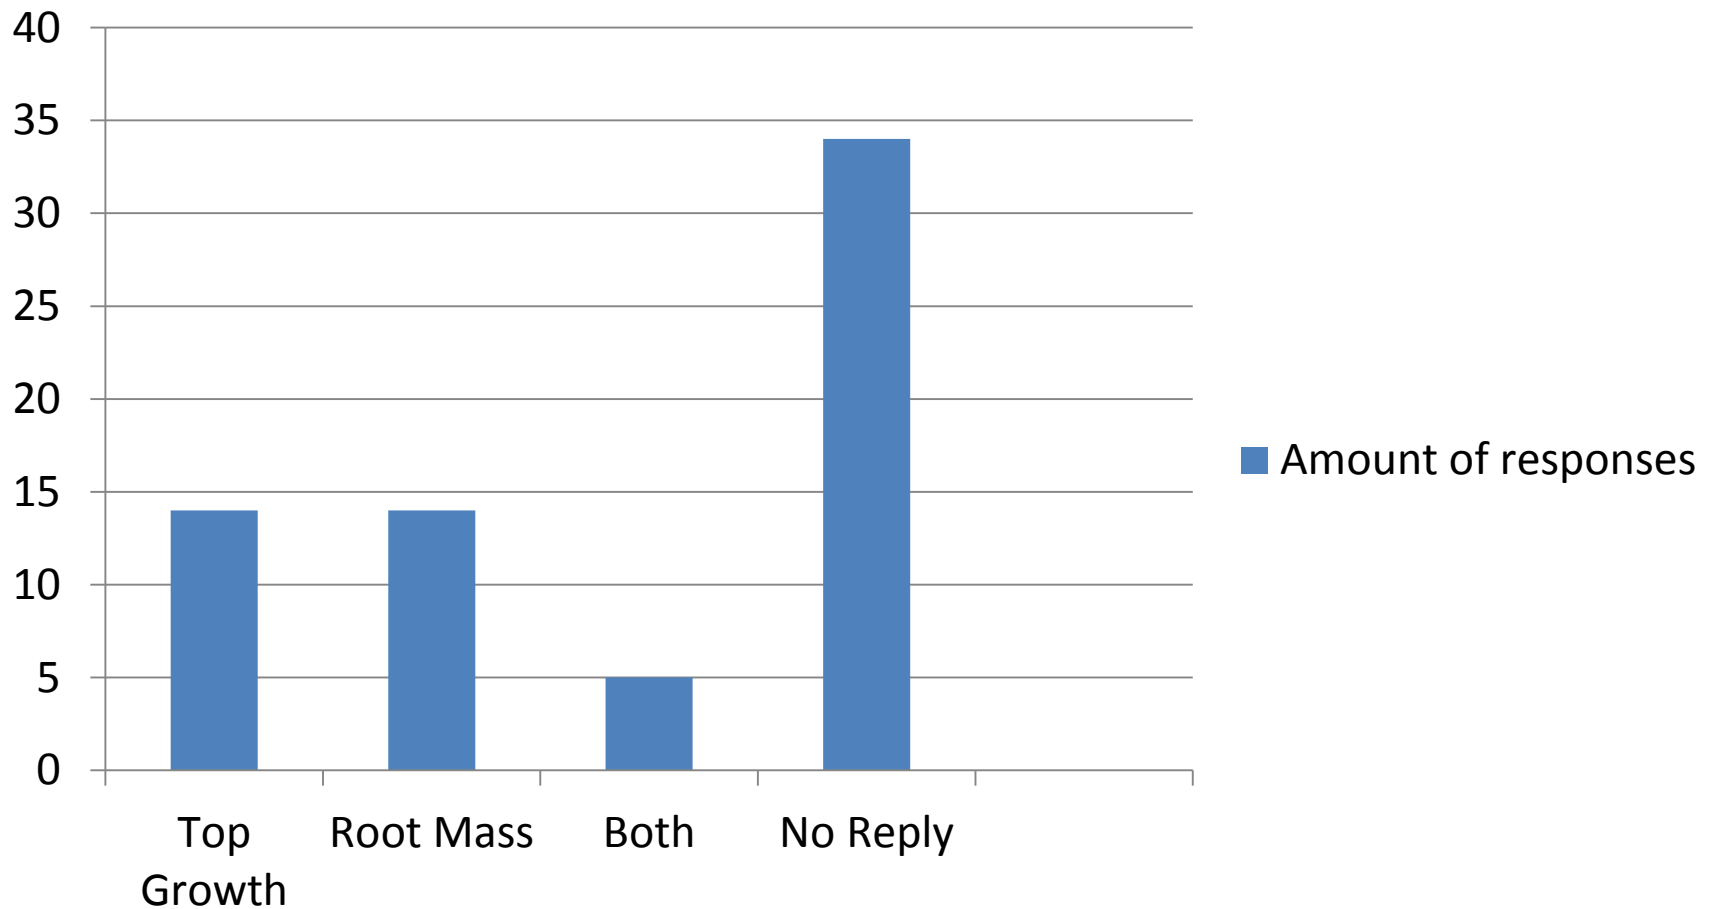

Do you have Common or European Buckthorn on your property?

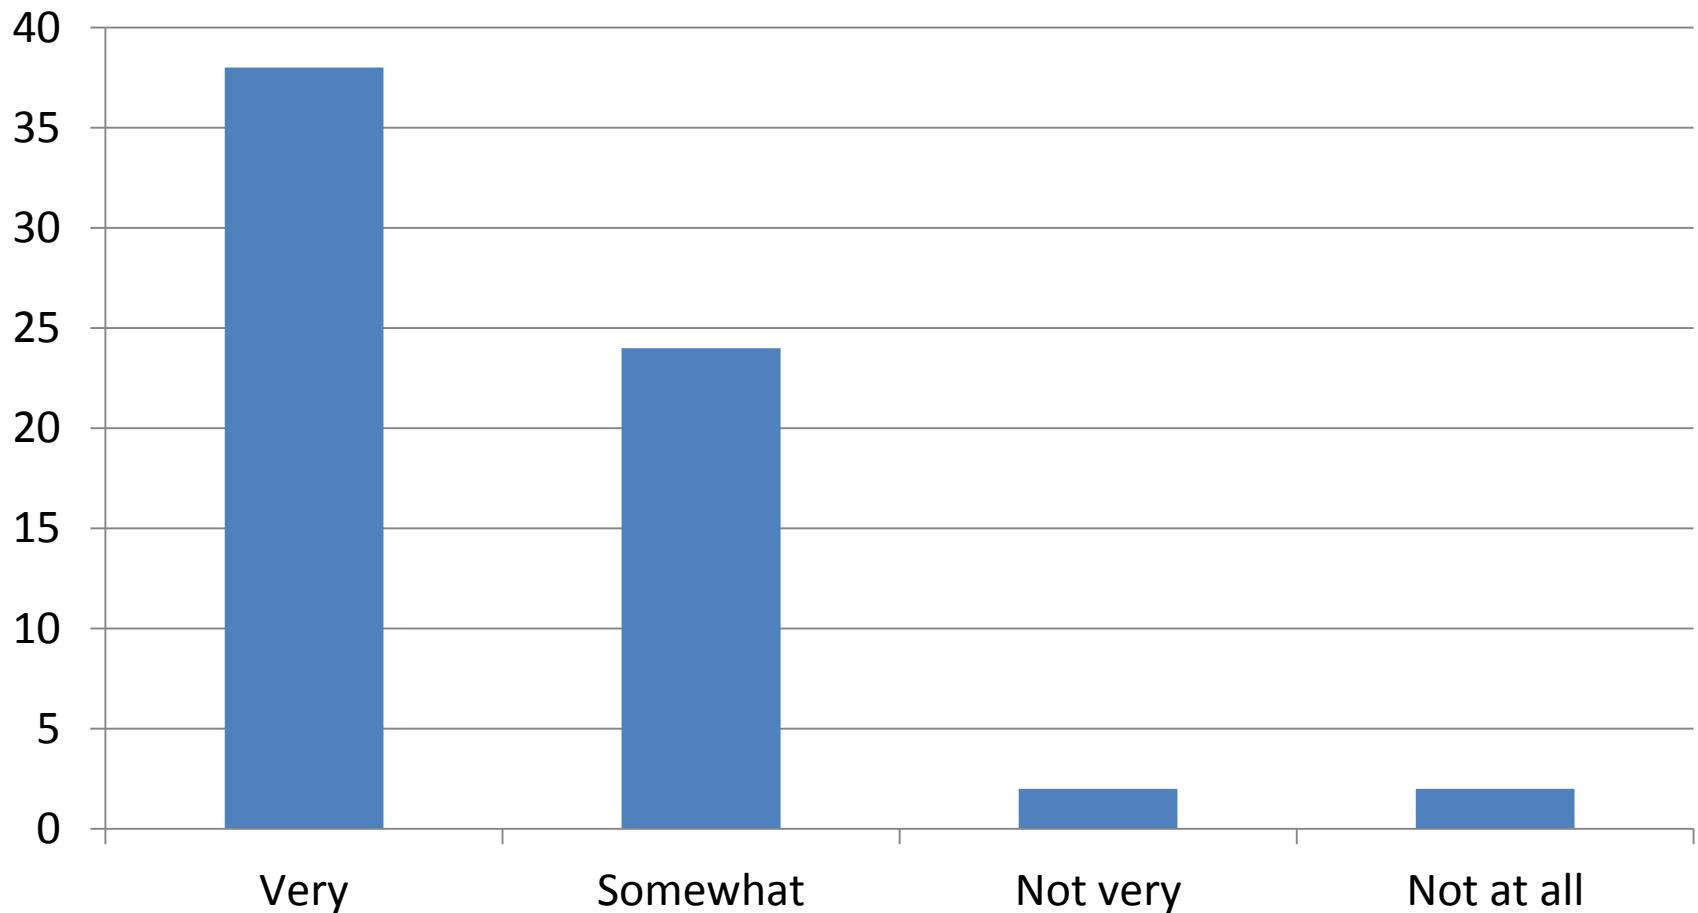

If harvested as a fall forage approx. how many tonnes/acre did you harvest as an on fed basis?

If you planted it for a cover crop were you more interested in....?

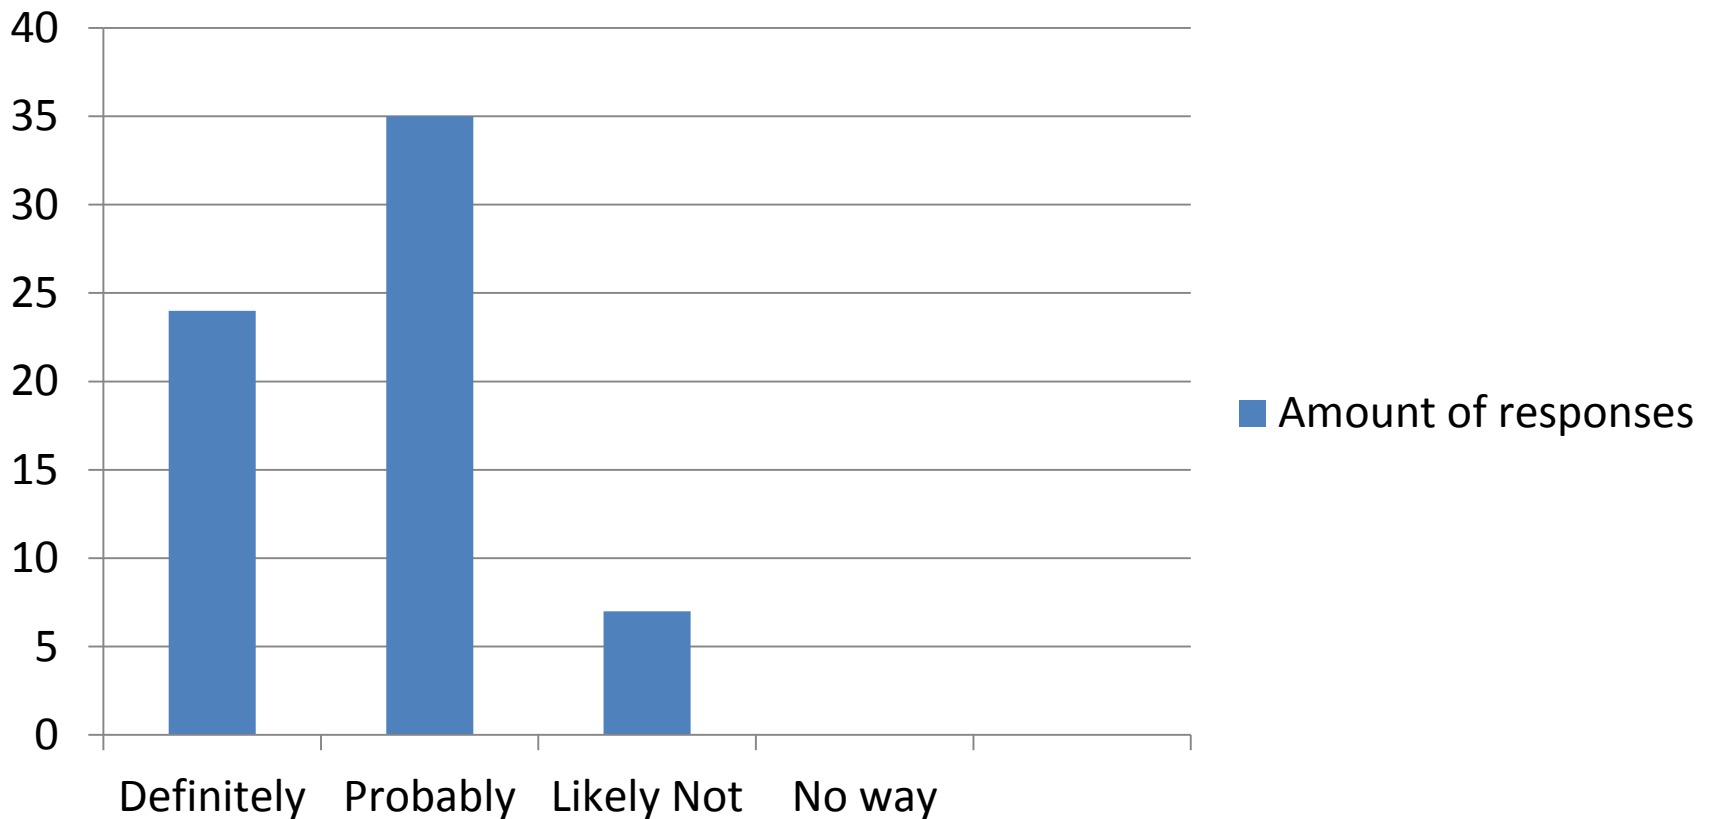

Regardless of why you planted, overall how satisfied were you with the results ?

Do you think you will plant a cover crop or fall forage crop again this summer?

Amount of responses

Which of the following species did you use last year, whether straight or mixed?
